RESEARCH INTERESTS

Generative AI Safety; Machine Unlearning; Trustworthy AI; Privacy-Preserving Learning

My research focuses on developing safe, robust, and controllable generative AI systems. My primary contributions span machine unlearning, generative vision models, and evaluation of model safety, with broader interests in extending these principles to large language models and embodied AI systems.

EDUCATION

Pohang University of Science and Technology (POSTECH)

Integrated Ph.D. in Computer Science & Engineering

– Advisor: Prof. Dongwoo Kim, Machine Learning Lab

Pohang, Korea

Feb. 2022 – Present

Pohang University of Science and Technology (POSTECH)

B.S. in Computer Science & Engineering

Pohang, Korea

Feb. 2017 – Feb. 2022

RESEARCH EXPERIENCE

Visiting Researcher

Computational Media Lab, Australian National University

– Hosted by Prof. Lexing Xie at the Computational Media Lab.

Canberra, Australia

Mar. 2026 – Jun. 2026

ADDITIONAL EXPERIENCE

Industry Research Project: Anomaly Detection for Sensor Temperature Forecasting

Korea Electric Power Corporation (KEPCO)

– Developed an STGCN-based forecasting and anomaly-scoring pipeline for multivariate sensor temperature time series.

Invited Research Presentation: Privacy-Preserving AI

Google Research ExploreCSR Workshop, POSTECH

– Presented research on skeleton action anonymization and feature unlearning for generative models.

Mar. 2023

HONORS & AWARDS

1st Place – Graduate Venture Investment Competition (VCIC Korea) <i>Venture Capital Investment Competition (VCIC)</i>	Dec. 2024
– Advanced to and represented POSTECH at the VCIC Global Finals in North Carolina (Apr. 2025).	
Hyundai Motor Chung Mong-Koo Scholarship <i>Hyundai Motor Chung Mong-Koo Foundation</i>	2024 – Present
– Doctoral fellowship awarded for excellence in AI research, providing full tuition and merit-based research support.	
Research Subsidy for Ph.D. Candidates <i>National Research Foundation of Korea (NRF)</i>	2024 – 2026
– Two-year research grant ($\approx$ USD 35,000 total) supporting independent doctoral research.	
Outstanding Paper Award <i>Korea Artificial Intelligence Association (KAIA)</i>	Jul. 2023
– Recognized for “Feature Unlearning for Pre-trained GANs and VAEs.”	
POSTECH Alchemist Fellowship	Sep. 2022
– Awarded for entrepreneurial potential ($\approx$ USD 7,500 grant).	
Cheon Sin-il Scholarship	2019
Boeing Scholarship	2018, 2019
POSTECH Global Leadership Program	2017

TEACHING EXPERIENCE

• Teaching Assistant, Machine Learning, POSTECH	Spring 2024
• Teaching Assistant, Youth AI-Big Data Academy, POSTECH	Fall 2023, Spring 2024
• Teaching Assistant, Programming and Problem Solving, POSTECH	Fall 2022
• Teaching Assistant, POSCO AI Experts Training Program, POSTECH	Fall 2022

PROFESSIONAL ACTIVITIES

- **Graduate Student Council President**, Department of Computer Science & Engineering, POSTECH (2025)
- **Conference Reviewer**: AAAI, CVPR, ICCV, NeurIPS
